CORE COMPETENCIES

- Knowledgeable in CAD standards, PC application software, and drafting, engineering practices, and methods.
- Knowledgeable in Web design programming languages (HTML, Java CSS, JavaScript).
- Knowledgeable in Graphic design applications such as Photoshop, Illustrator, and InDesign).

Professional Overview

A Fresh Graduate of Mechatronics Engineer with active involvement in the School's Engineering Society and was granted a scholarship as the School's Violinist.

Right now, I am freelancing as a violinist and a graphic designer. I can design and create simple yet effective marketing materials that will give clients a visual feast.
